

Psychic Medium: A Personal Story Of Questioning Everything He Told For The Sake Of

I've been a psychic medium for over 20 years, and in that time I've heard it all. People have told me that I'm a fraud, that I'm making it all up, and that I'm just a good guesser. But I know that what I do is real, and I've helped countless people connect with their loved ones who have passed away.

One of the most common questions I get asked is, "How do you know if what you're saying is true?" And the answer is, I don't. I can't control what comes through me, and I don't always understand it myself. But I've learned to trust my intuition, and I've found that the information that comes through me is often accurate and helpful.

Of course, there are times when I've been wrong. I've said things that didn't make sense, or that turned out to be false. But I've also had many experiences that have convinced me that what I do is real. I've seen people's faces light up when I tell them something that they couldn't possibly have known. I've helped people to heal from grief, and I've even helped to solve crimes.

I know that there are skeptics out there who will never believe in what I do. But I also know that there are many people who have been helped by psychic mediums. And I believe that everyone deserves to have the opportunity to experience the peace and comfort that can come from connecting with their loved ones who have passed away.

In this book, I share my personal story of how I became a psychic medium. I talk about the challenges I've faced, the skepticism I've encountered, and the amazing experiences I've had. I also offer advice on how to develop your own psychic abilities, and how to connect with your loved ones who have passed away.

I hope that this book will help you to open your mind to the possibility that there is more to life than what we can see. I hope that it will give you hope and comfort, and that it will help you to connect with your loved ones who have passed away.
