## **Excerpt from Stuck in Space with My Crush**

Anya looked out the window of the spaceship, her heart pounding in her chest. They were about to crash-land on a distant planet, and she didn't know if she was going to survive. She closed her eyes and took a deep breath, trying to calm herself down.

When she opened her eyes again, she saw Ethan sitting next to her. He looked just as scared as she felt, but he was trying to hide it. Anya reached out and took his hand, and he squeezed it back.

"We're going to be okay," she said. "We're going to survive this together."

Ethan smiled at her, and for a moment, Anya forgot that they were about to crash-land on a distant planet. All she could think about was Ethan and how much she loved him.

The spaceship crashed into the planet with a deafening roar. Anya and Ethan were thrown from their seats and knocked unconscious. When they woke up, they found themselves lying on the ground, surrounded by the wreckage of the spaceship.

Anya looked around and saw that her classmates were all alive. They were all injured, but they were alive. Anya turned to Ethan and smiled.

"We made it," she said. "We survived."

Ethan smiled back at her. "I know," he said. "And we're going to survive this together."

Anya and Ethan stood up and began to walk away from the wreckage of the spaceship. They didn't know where they were going, but they knew that they would be okay. They were together, and that was all that mattered.
