The Beatles' "Yesterday" is one of the most famous songs of all time. It has been covered by hundreds of artists and translated into dozens of languages. But what's the story behind this classic song?

According to Paul McCartney, who wrote the song, "Yesterday" came to him in a dream. He woke up with the melody in his head and immediately sang it into a tape recorder. He wasn't sure what the lyrics meant at the time, but he knew he had something special.

McCartney initially thought the song was too simple and didn't want to include it on the Beatles' next album. However, his bandmates convinced him to give it a chance, and it quickly became one of their most popular songs.

The lyrics of "Yesterday" are simple but evocative. They tell the story of a lost love and the pain of moving on. The song has been interpreted in many ways over the years, but it remains a powerful and moving ballad that has touched the hearts of millions.
